

Claude Neon

Transport NSW

The Challenge

The project required Claude Neon to develop and install over 2000 signs, incorporating everything from simple door signage and brail signage for the visionarily impaired to complex scrolling directional signage, which are synchronised with escalators to provide optimum wayfinding solutions for the changing dynamics of the cityrail network.

The Result

Considerable after hours and night time work was required by the project team, who worked closely with other contractors and juggled work on pre existing fully functional stations.

The 13km Chatswood to Epping Rail Link was opened to the public in February 2009 and provides direct access to the growing North Ryde/Macquarie Park area.
