

Canberra Centre

The Challenge

Claude Neon's expertise in managing large scale signage projects was called upon at every turn in the development and installation of signage for the QIC Canberra Centre.

As one of the largest retail centres in Canberra, the shopping mall's needs were diverse and required meticulous planning and execution.

The Result

Claude Neon designed, manufactured and installed a variety of signage for QIC including statutory door signs, directional signage, advertising poster panels and various illuminated tenancy signs.

The key to success here was coordinating works both interstate and on-site, which included liaising with various other trades to gain access to installation areas and equipment such as large boom-lifts.
